Vestel City, which comprises nine plants located in Manisa, is amongst the biggest industrial complexes of the world.

Comprised of 28 companies, Vestel Group is a multi-industry manufacturer that operates in consumer electronics, major domestic appliances, professional displays, automotive and battery solutions, and EV Chargers. Testimony to the global importance of Zorlu Holding across multiple technology sectors, Vestel is not only thriving at home in Turkey, but also through a further 10 subsidiaries that have been set up in various other parts of the world. Thanks to its renowned manufacturing and R&D complex, Vestel exports to 158 countries and keeps its position as a global player.

The company is recognized for its cutting-edge designs, high product quality, large production capacity, and superior market share growth with an annual manufacturing capacity of 15 million television sets.

Total productive maintenance and the six sigma approach implemented throughout the manufacturing process improve efficiency and productivity in all areas, making Vestel a world-class manufacturer.

All Vestel products are tested in-house in the company's certified quality labs to ensure electronic and mechanical sustainability.

Leading the European market in digital products, Vestel has established agreements with the major digital television operators in Europe for the production of digital television and set-top boxes.

Vestel places the utmost importance to product design and development. The company invests in new technological developments continuously to lead the electronics and major domestic appliances markets.

R&D facilities located in Turkey, UK, and China employ the highest caliber engineers to develop hardware and software solutions that provide clients with world-class quality products.

Vestel has proven its success in product design by receiving the most prestigious design Awards every year from well-known industrial design organizations for a variety of products.

Vestel Trade, the company responsible for the marketing and sales of Vestel products overseas, exports 75% percent of its production under leading Japanese and European brands to 158 countries.

Vestel appeals to different consumer tastes in 158 countries with its wide range of products which reflects its competencies in technological development, design and product customization. Accounting for 90% of Turkey's TV exports and 36% of the nation's major domestic appliances exports, Vestel has been an unwavering export leader in the Turkish electronics sector for the past 23 years.

RFTV Solution
DIGIGUEST Coax HotelTV

Digiguest Coax HotelTV is an affordable solution for displaying hotel information, targeting corporates without reliable data & networking infrastructure. It helps hoteliers leave a great impression upon their guests by giving high quality and dedicated service without sacrificing many aspects of IP HotelTV solutions. Once the desired information is created, it can be streamed to all TVs via a single RF frequency. It is designed for low power consumption delivering big and bright images at low installation cost.

» Server – TV communication runs over RG6-U6 infrastructure, using DVB-T protocol

» Alternative to IP based Hospitality TV solutions

» Independency from internet connection

» Property Management System (PMS) integration, Welcome Message

» 1 Infotainment channel support

» Shopping experience with a QR scanner mobile application

Standalone Solution
DIGIGUEST Basic HotelTV

DIGIGUEST IP HotelTV

Digiguest Basic HotelTV is the least costly choice compared to the other solutions such as IP or Coax, as remote management options and scalability are no more available. However you may still need a configurable & upgradable TV. With Digiguest Basic HotelTV, you will still benefit from cached user interface and prefilled information. This mode also allows you to upgrade to IP or Coax modes or a 3rd Party Hospitality Software anytime with license upgrade.

Why do you need Basic HotelTV?

» Works as standalone, with customizable embedded UI.

» Welcome Screen with language page, Channel Sorting and data privacy

» Upgradable to IP & Coax Modes with license key

» API/SDK support 3rd Party Hospitality Software

» Soft AP (Access Point) and Smart Apps are activated if connected over Ethernet or Wi-Fi.

Innovative User Experience

Vestel Hospitality TVs offers significant flexibility to design a Corporate User Interface for your needs. Advancing technologies in HTML and Browser standards provide better user experience, smoothness and functionality. UI/UX Editor software allows you to encolour, sort, replace and add new menus according to your pleasure and corporate requirements.

Express check in/out – PMS Integration

The hoteliers can manage automated data exchange with PMS in order to ensure correct guest data to be present in Hospitality Interactive HotelTV System, to activate TV-set and welcome message before guest enter the room for the first time.

Triple Tuner + IP Streaming + Content Distribution

The system provides the opportunity to select RF tuner and/or IP streaming to watch TV channels. IP streaming is performed via DVB-to-IP Gateways which have digital and analog input interfaces. Triple RF tuner allows guests to enjoy terrestrial, cable and satellite (DVB T2/C/S2) channels. Hybrid solution is also possible, such that system infrustructure enables IP communication for enhanced interactivity, but TV channels may be distributed over coaxial cables. Digital TV broadcasts, Video & Music on Demand contents and all types of OTT streaming can be encrypted by DRM solutions such as Microsoft Playready, Google Videwine and Marlin.

Interactive Services

Vestel HotelTVs can be used to extend IP or Coaxial solution's capabilities if worldwide web (internet connection) is available. Simply adding additional benefits with smart Applications YouTube, Netflix, Amazon Prime and more than +100 apps will be provided. The hospitality solution gives you full flexibility where to locate these apps, even in homepage. There are also predefined information services: About Hotel, Weather Forecast, World Clocks, News, Exchange Rates, Landmarks, Nearby Attractions, Flight Info,Telephone list and Custom Sliding Pages for guests to find out useful information about the place they are staying.

Netflix is the most famous and essential VoD provider to watch movies and TV shows over internet connection. Vestel Smart TV enables you to watch thousands of movies and TV shows anytime you want and as much as you want via Netflix service. Having access to incredible world of TV episodes and movies, Vestel Smart TV instantly transforms your living room to a movie theater or a TV studio!

Prime Video is the Video on Demand service developed, owned and operated by Amazon. It offers television shows and films for rent or purchase as well as a selection of Amazon Studios original content and licensed acquisitions. You can get access to Amazon's carefully curated and steadfastly expanding content with an Amazon Prime or Prime Video Membership. As a close partner of Amazon, Vestel Smart TVs bring the Amazon experience to your living rooms at your fingertips or through your voice!

Youtube is the world's biggest and most popular video sharing platform. The latest and greatest music videos, trends and channels are in here. You can also synch your mobile device to the app and enjoy the content. Being the most used app on Smart Tvs through out the world, Youtube is essential.

Freeview Play is another smart portal that Vestel supports which includes BBC iPlayer, ITV, All4 and Demand5. You can enjoy catch up services of these channels via backward EPG, all in one place. Just connect to internet, open your Freeview Play and start watching without a subscription fee.

Vestel HBB (Hybrid Broadband Broadcast) TV feature provides a delightful entertainment to the users through the harmonized variety in broadband and broadcast delivery by extending the reach of multimedia content on your TV set. More entertainment services from broadcasters and online providers such as video-on-demand (VoD), interactive advertising, personalization, voting, games and social networking as well as program related services such as digital text and EPGs will be accessed by end-user.

Rakuten TV is a video-on-demand streaming service, offering movies and TV series for subscription, rental and purchase. Rakuten TV's catalogue includes content from studios around the world including Warner Bros., Disney, Sony Pictures Entertainment and Twentieth Century Fox Home Entertainment, local distributors, and independent labels.

Operational in 11 countries across Europe, Rakuten is a longterm partner of Vestel.

BBC Sports offers users to access best sport coverage both with live streams and VoD. You can watch live sport events from tennis tournaments to rugby games. Besides, you can watch latest highlights and headlines for these delusive events. Major sport events available come to your home with Vestel Smart TV via BBC Sports.

BBC News provides you latest news and highlights from global journalists. You can quickly find the topic you are interested in as well as reaching the news based on the categories you are interested in.

BBC iPlayer is an online VoD platform including whole TV shows as well as range of video clip contents. You can watch live contents and your favorite TV programs that you missed via BBC iPlayer on your Smart TV. Vestel Smart TV is all you need to meet your expectations from an online TV and radio service by providing you an opportunity to experience devastating entertainment show.

DTS

Vestel is offering immersive audio experience option using DTS sound systems. DTS is a series of multichannel audio technologies owner. The company is specialized in digital surround sound formats used for both commercial/theatrical and consumer grade applications. DTS licenses its technologies to consumer electronics manufacturers and Vestel is the one of the manufacturers holds DTS license. Why sound matters? Mobile era has changed the consumer needs and content consumption habits. In order to satisfy viewers Vestel is offering higher quality

DTS Virtual:X simplifies the expansion of the surround sound listening by providing primarily the perception of height channels, without requiring additional speakers. DTS achieves 3D surrounding sounds natively without sound conversion process from 2D to 3D.

audio, which has less effect on bandwidth and more effect on likeability than picture quality, thanks to the DTS technologies. DTS 2.0, DTS TruSurround, DTS HD are already equipped with Vestel TVs. Keeping track of enhanced sound system technologies makes us move for newest DTS technologies as well, expecting to offer DTS Headphone X for Vestel TV range.

Experience supreme sound quality thanks to the integrated DTS on Vestel mainboards; enjoy concerts, movies or any sports program with sound excellence.

Better Picture Quality

MEMC

Algorithm to overcome the motion blur effect. MEMC technology detects movement patterns of the objects and apply interpolation between pixels, providing much more smooth video experience.

HDR 10+

HDR10+ works differently than HDR10. It sends dynamic metadata, which allow TVs to set up colour and brightness levels frame-by-frame. This makes the picture look realistic. HDR10 aims to produce 1000 nits of peak brightness, whereas HDR 10+ supports up to 400 nits.

Standard Technology

HDR Technology
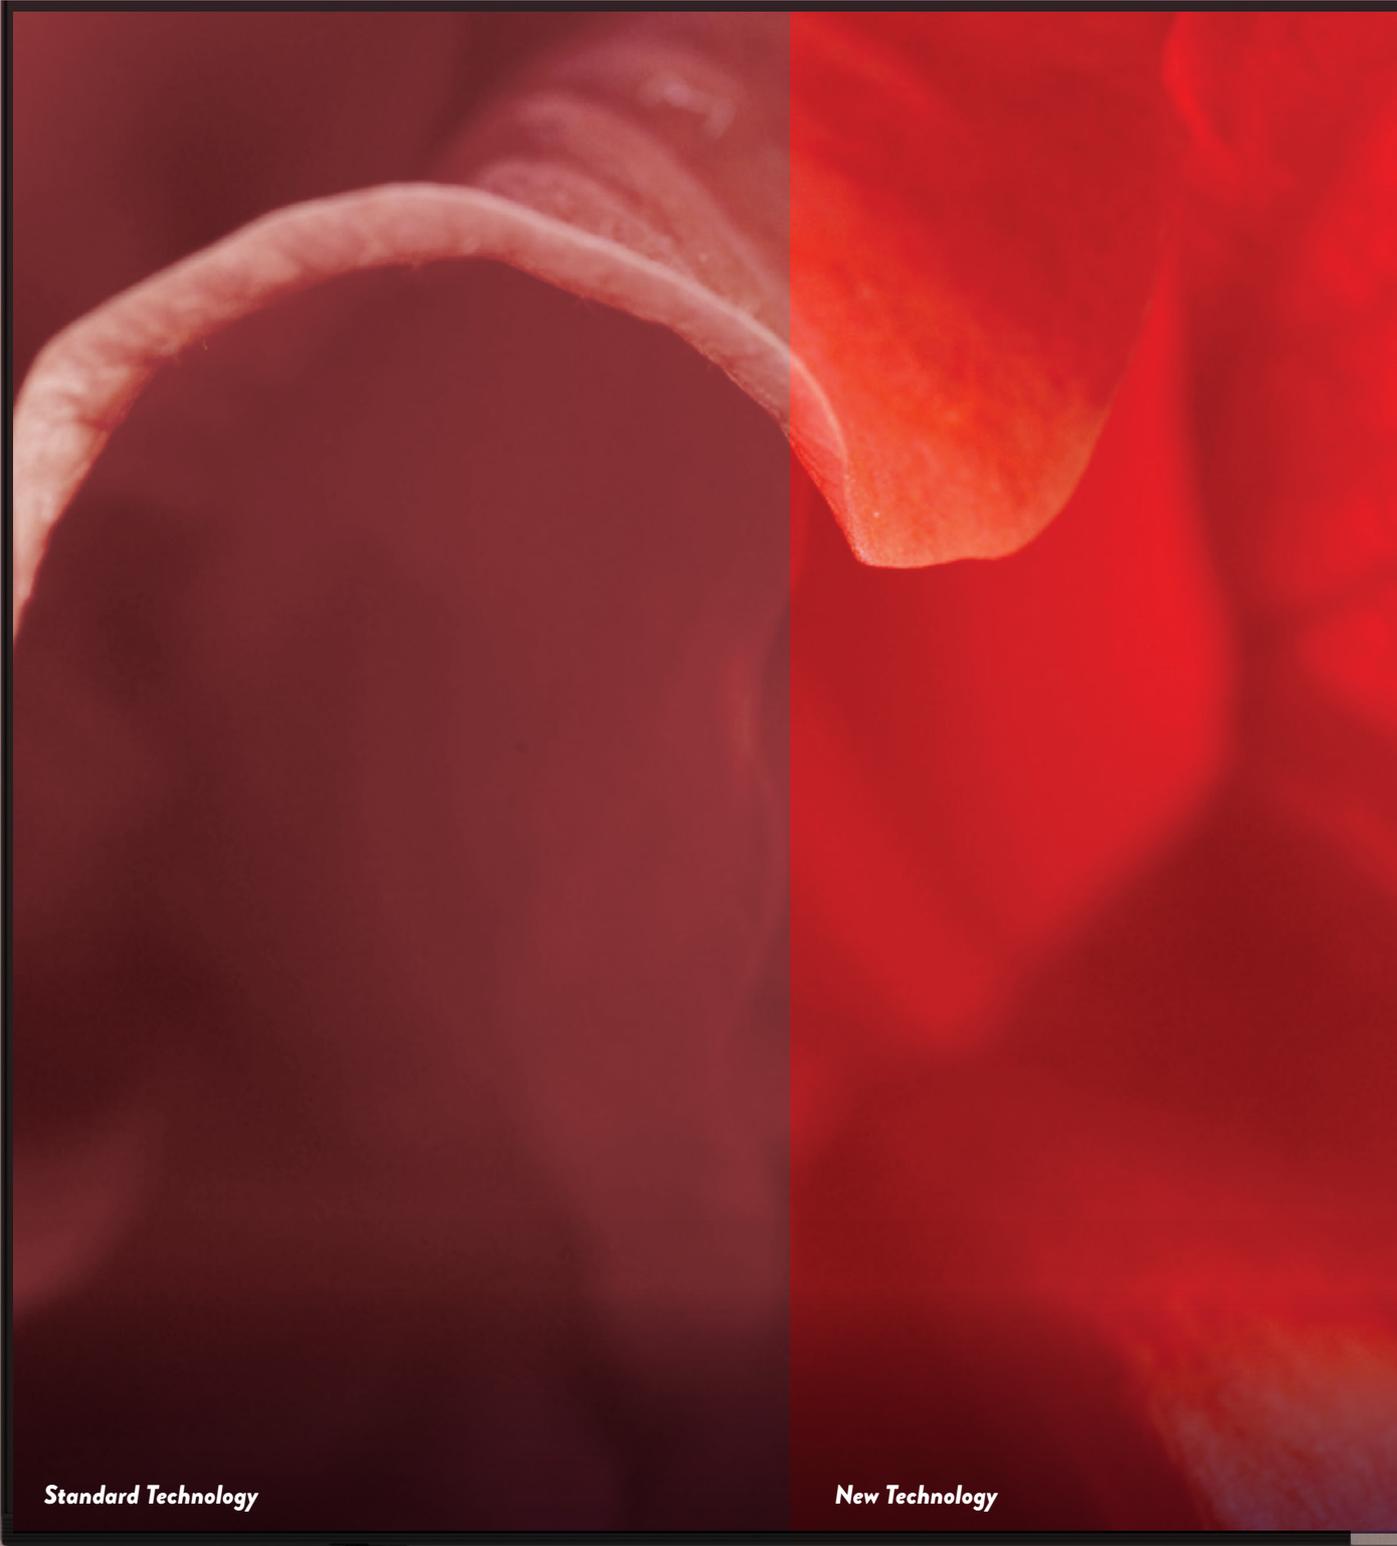

Standard Technology

New Technology

Micro Dimming

Algorithm for better contrast and vivid picture quality. This is provided by deep analysis of each pixels, realizing dark and bright regions and applying separate backlight.
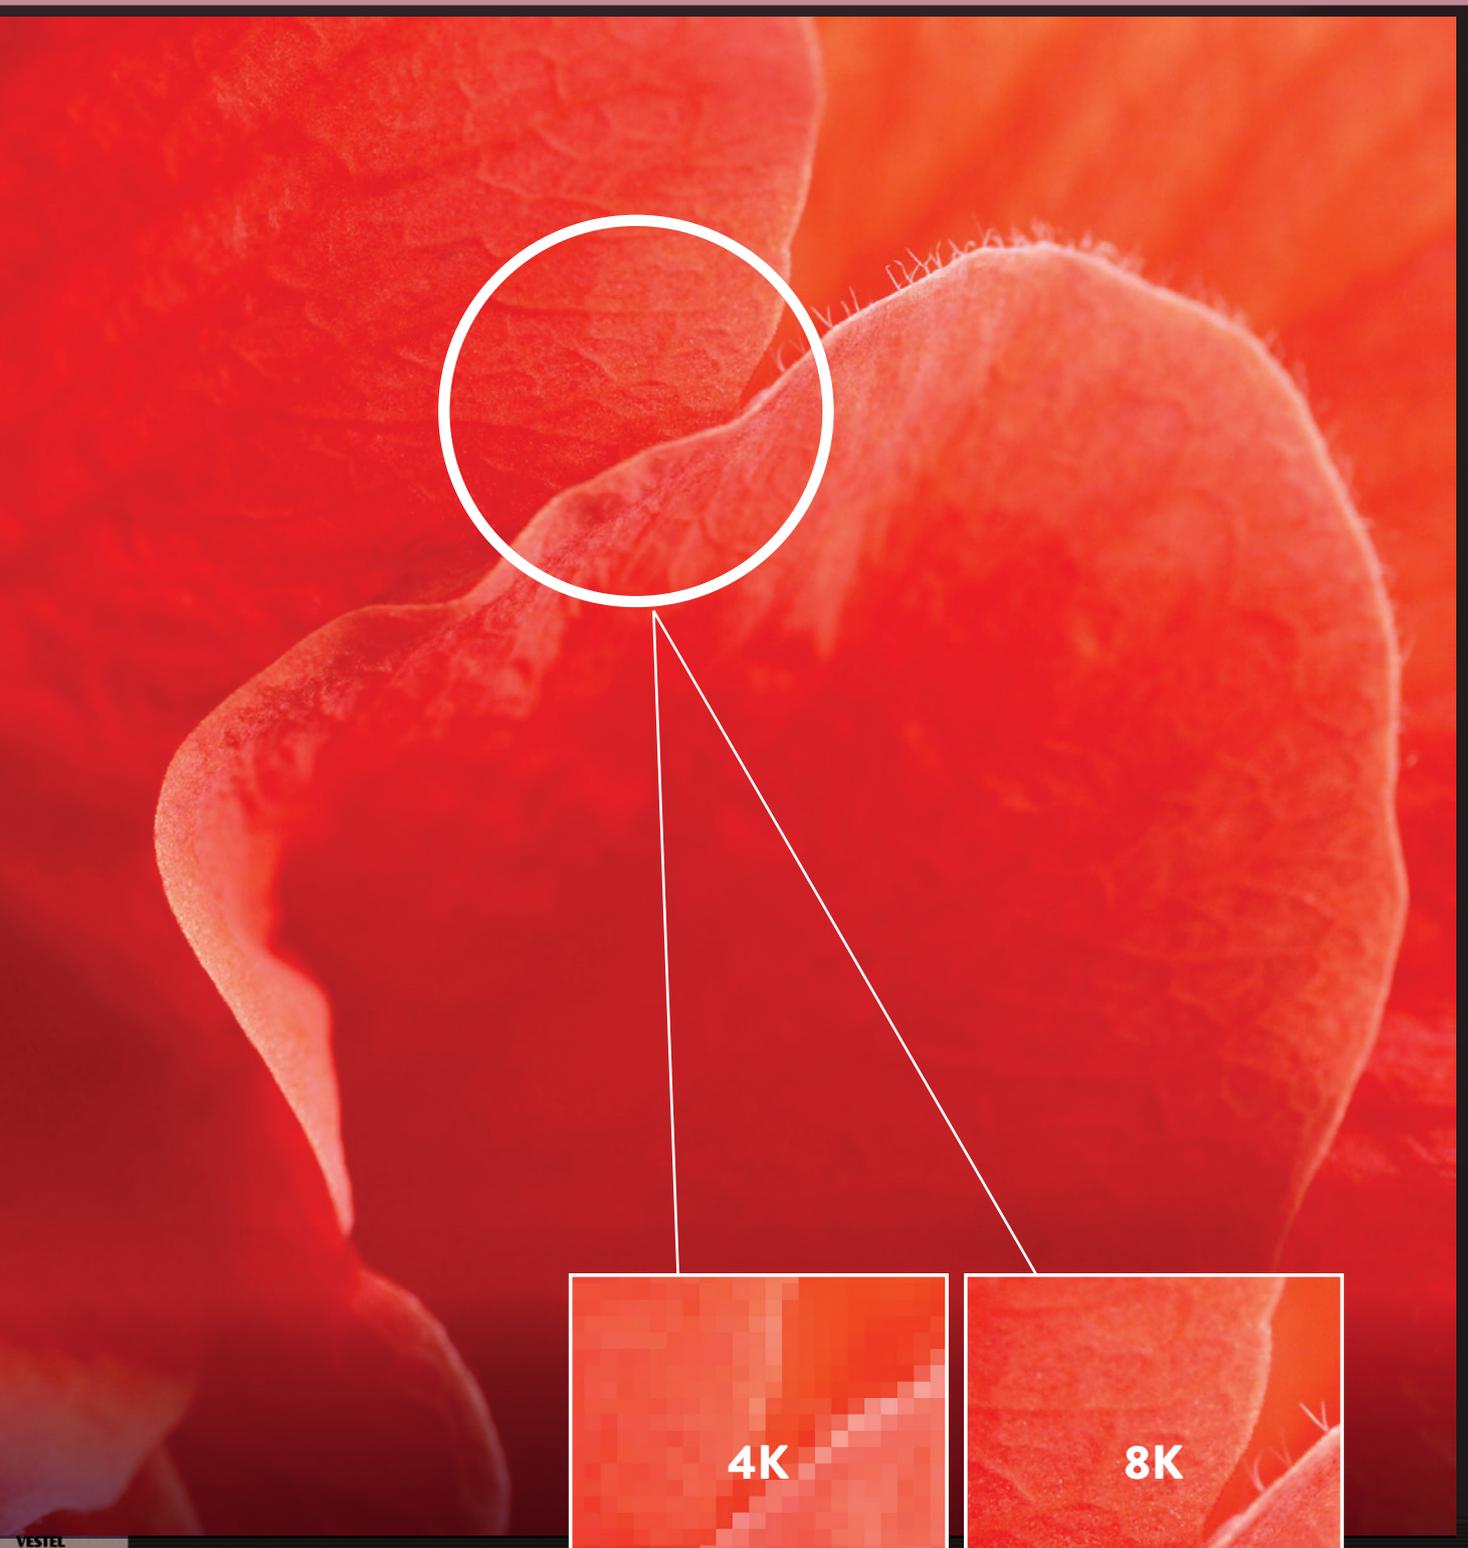

Super Resolution

Algorithm to solve the artifacts of low resolution video upscaling.

Media Intelligence

Multiscreen Technology

Vestel Smart TV allows you to use your companion devices (tablet pc and smartphone) by synchronizing them with your Smart TV. Meanwhile, you can build multi-screen system at your home that upgrades you to a higher entertainment level. You can control your Smart TV with your mobile devices wirelessly, you can send multimedia contents from your devices to your TV in order to view them on TV screen and transfer TV stream to your companion devices to watch the stream on device simultaneously.
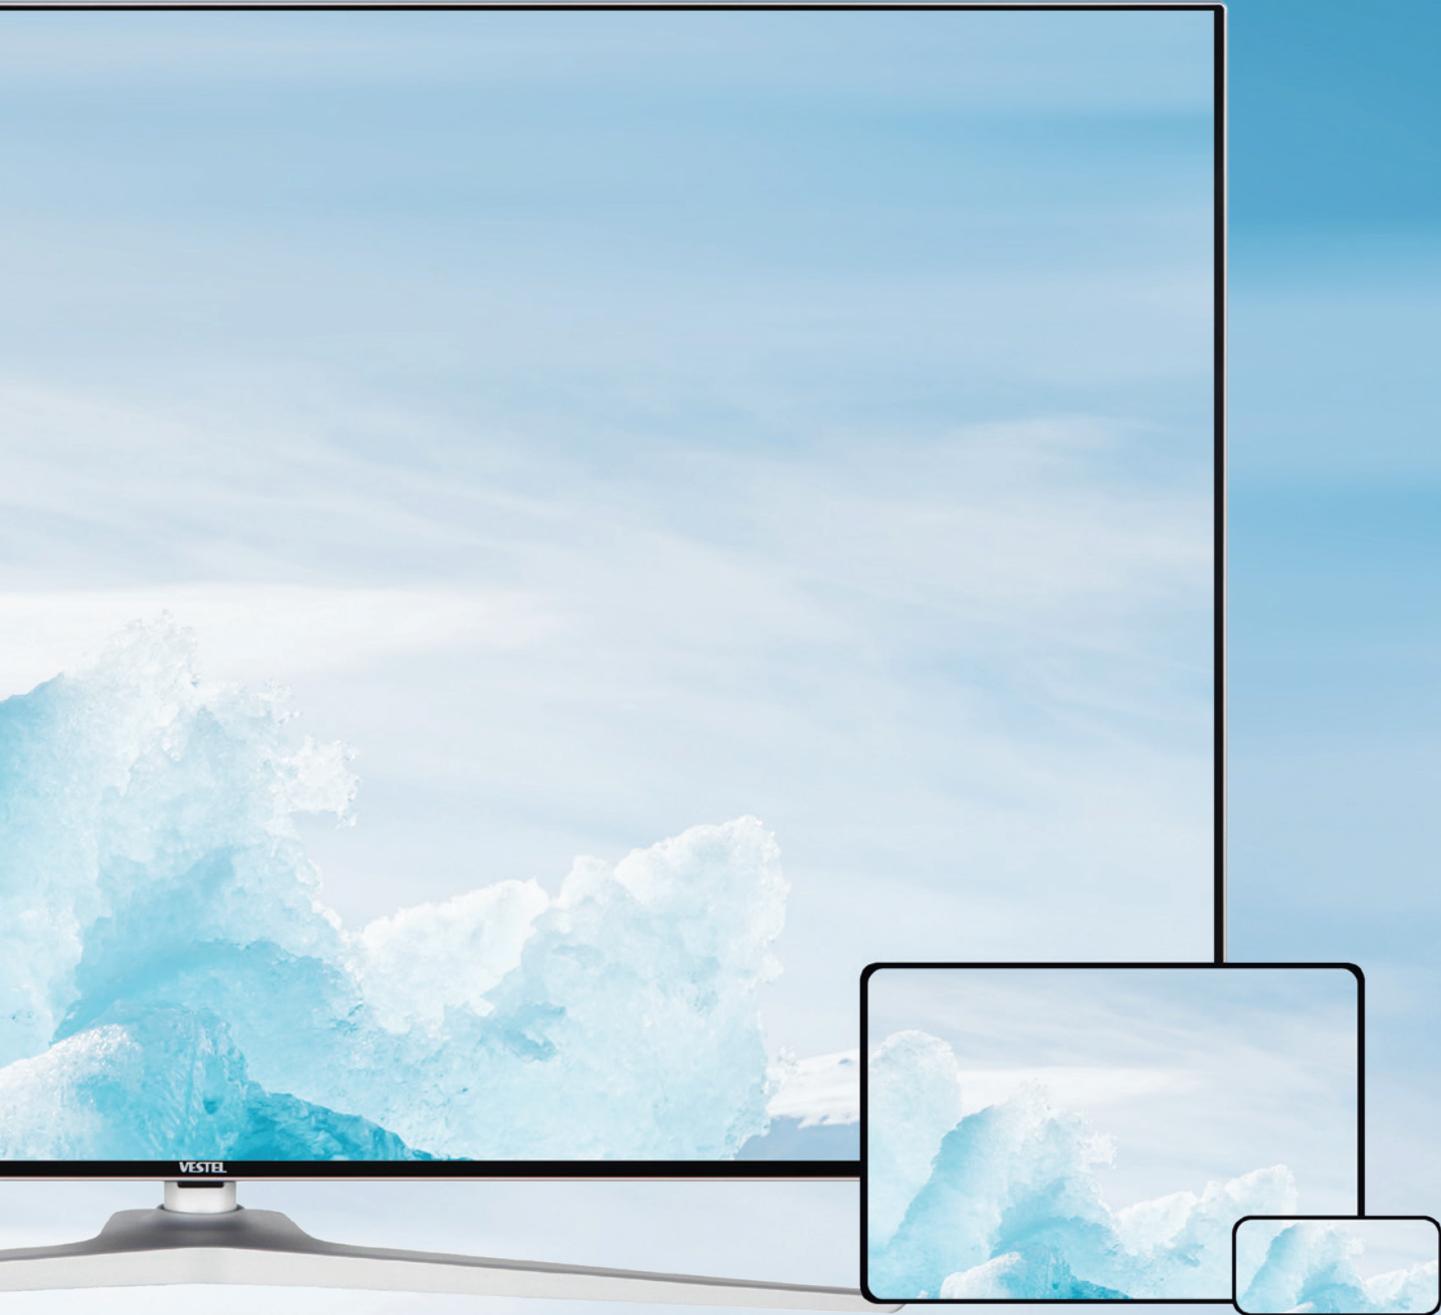

Wireless display

Wireless display feature allows mirroring the screen of your compatible Android device to stream videos up to 1080p on your Vestel Smart TV. While you are streaming a video on your smartphone, you can simultaneously mirror the screen of Android device on your wider Smart TV screen to enjoy detailed and higher quality pictures on TV without using any cable. Moreover, it is possible to send up to 5.1-surround sound that enables you to experience high quality sound as well. Besides, you can just share the home screen of your device, to scroll between the apps on your Android device. Directly connect mobile device to your TV and get a new perspective on sharing! Besides, wireless display technology allows users to send stream, photos, music, videos and apps from compatible Intel based PCs or portable devices to your wireless display compatible Vestel TV wirelessly. You can send up to 1080p video and 5.1 surround sound and have the opportunity to display the stream or multimedia contents on the bigger screen of TV with excellent picture and sound quality. You don't have to stick to little screen of your PC or portable device anymore. Just enjoy the new entertainment experience on your TV!

VCAST

You can use your phone, tablet, or computer to control supported applications on TV. This feature of Youtube application helps the user to connect their personal accounts to their Smart Tv only with a few clicks. You will have the comfort and efficiency of your mobile devices while watching the content desire on your Smart Tv. Just make sure your phone, tablet, or computer is connected to the same Wi-Fi network as your TV device. You also have the option to link with a TV code.

Followme TV

Do you have to do some work in kitchen and want to continue to watch your favorite program? Smart Center allows viewers to deliver the video stream from Smart TV to tablet pc. While watching your favorite program, just transfer the broadcast to your mobile device. You can take your mobile device with you and continue to watch your favorite program in your kitchen!

EPG via Gracenote

EPG (Electronic Program Guide) data provides necessary information to viewers about TV broadcast prograing and program schedule for current and upcoming programs. Via Gracenote, Smart Center app will provide you broadcast schedule data and you will be aware of TV programs in details such as cast and crew. Moreover, you will be able to set reminders to watch your favorite programs as well as recording on time schedule of programs based on EPG data.

Portal launcher

Viewers can launch Smart TV Apps from personal tablet PC. Without using classical remote control, via Smart Center, you can connect your mobile device to your TV and directly launch various Smart TV apps and open browser by using your mobile device.

TV control: voice control, touchpad, keyboard and remote

You don't need your classical remote anymore! Via Smart Center, there are many options to control your TV over your mobile device. By using remote control panel on your mobile device; you can use your device as classical remote control. Moreover, you can use keyboard option while searching on internet. While using open browser, you can turn your mobile device into a touchpad controller. Attractively, you can give voice coands over Smart Center to control some features of your Smart TV.

Social media interaction

You can follow and send program related tweets or like your favorite programs on Facebook while watching your favorite TV program on your Vestel Smart TV. This way, you can connect to people all over the world that have the same delight with you!

Media share

Via Smart Center, it is possible to send music, pictures and videos from your mobile device to your Smart TV TV by swiping over DLNA protocol and view them full size on your Smart TV to enhance your viewing experience. For instance, you can display your holiday photos together with your family on your big screen quality Smart TV with a simple swipe movement.

TV programs and vod (video-on-demand)

Viewers can browse TV channels, search movies or on-demand services on Smart Center. You can arrange your favorite TV channels, you can see the details of your favorite program and watch videos by using VoD that are related to your favorite TV program on internet.

Vestel Smart Center
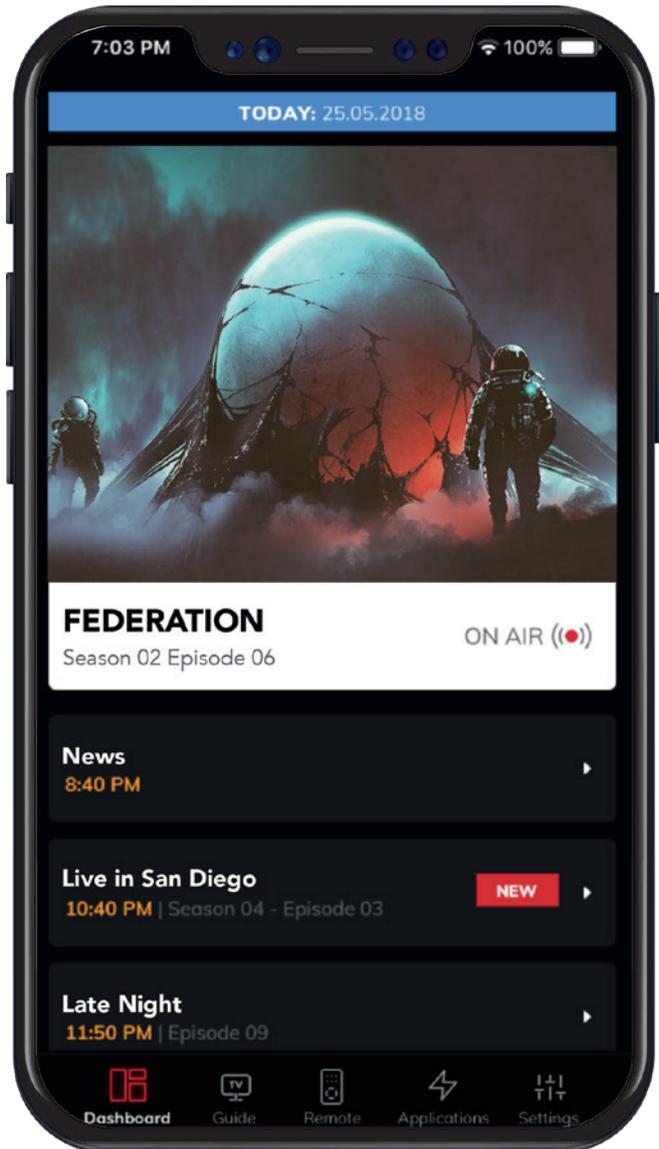

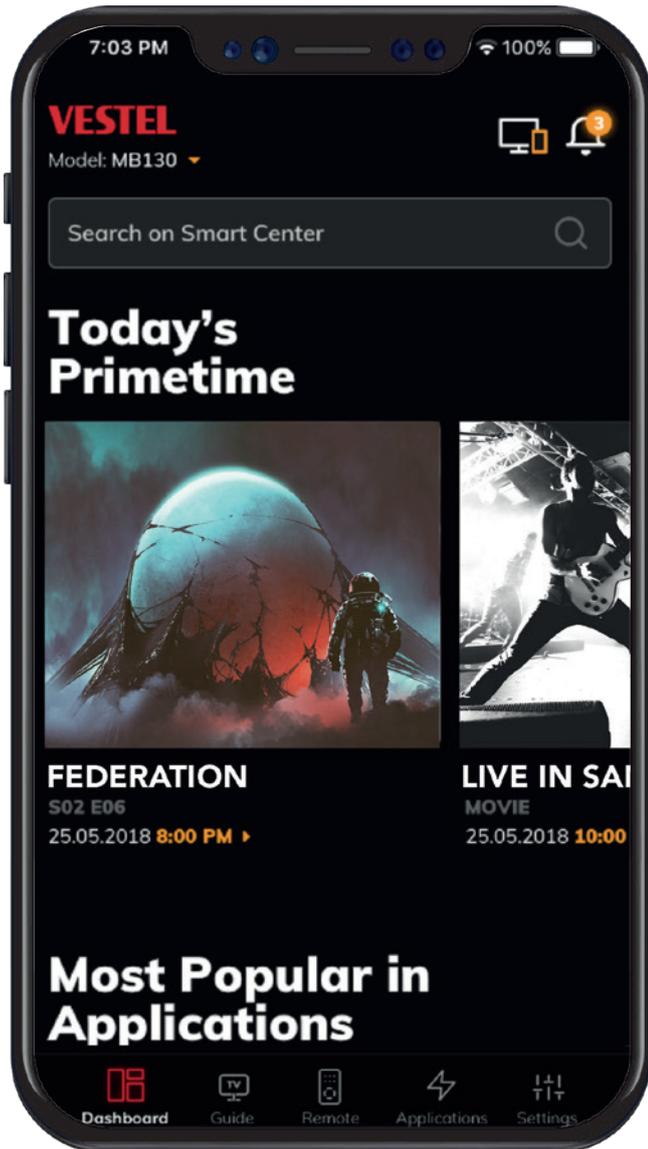

Vestel Smart Center is a mobile application that provides you a seamless mobile application experience on iOS and Android devices.
Smart Center allows users to perform following features:

+   FollowMe TV

+   Media Share

+   TV Programs and VoD

+   Social Media Interaction

+   EPG via Gracenote

+   Portal Launcher

+   TV Control

Vestel Smart Center has 4 different Remote functions:

Simple Mode
App Mode
Advanced Mode
Browser Mode

You can use Vestel Smart Center to easily control your Smart TV with its Remote function. It allows you to use your tablet pc and smartphone as substitutes of traditional remote controller. You can control your Smart TV by using different mode options: Remote buttons, Keyboard, Mouse, Gesture and Voice! Integration of these modes in single app allows you flexibility for a simpler user experience.

Traditional remote control buttons are integrated into Smart Center app. Therefore, you can use your Tablet PC and smartphone as a remote controller. Traditional mode is provided in an extreme technological style!

You can use your Tablet PC and smartphone as a touchpad mouse on "Browser Mode" to control the mouse pointer on your Smart TV.
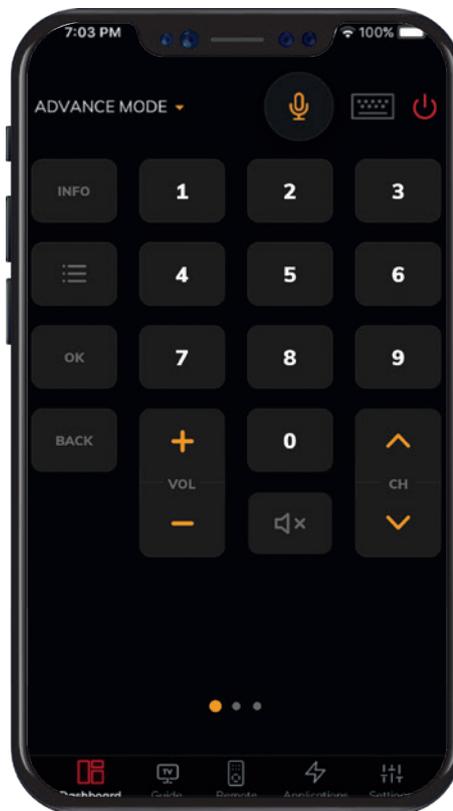

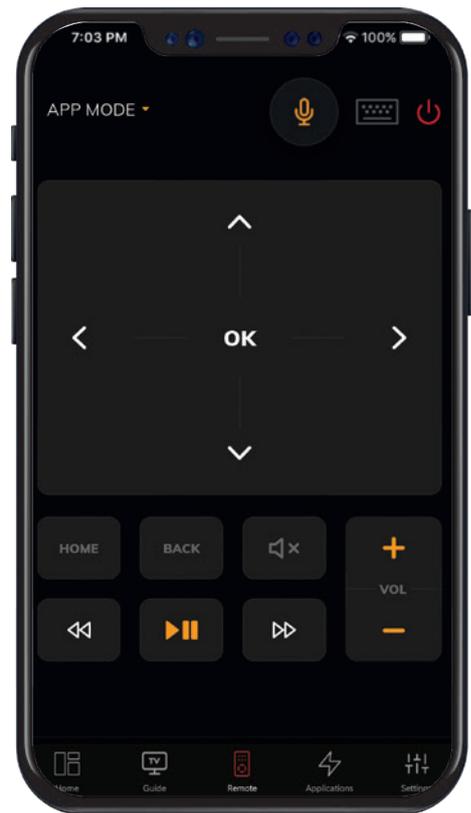

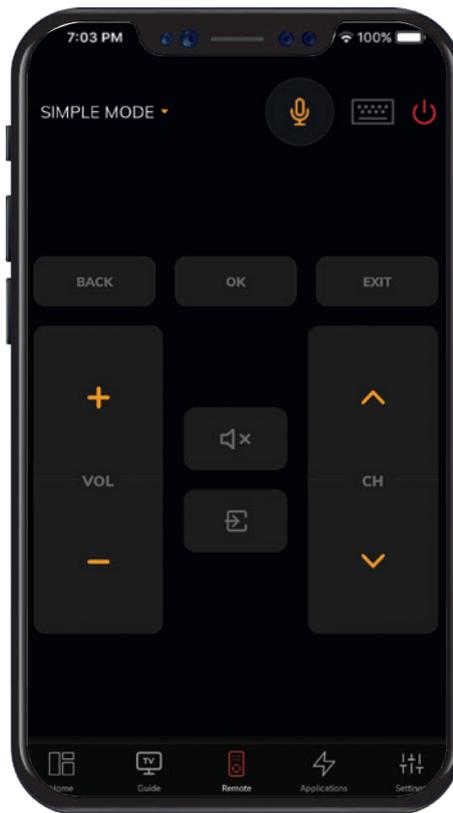

DVB-T + C, DVB-T2 and DVB-S2

DVBT2/C/S2 Vestel TV employs the integration of DVB-T + C, DVB-T2, and DVB-S2 tuner which allow TV set to recieve digital terrestrial cable, and satellite broadcasts without using a set-top box or a Pay tv reciever.

Microsoft PlayReady DRM

Wide range of applications including VoD, sports, games, social media, and etc. with support of Microsoft Playready DRM.

Multi IR RCU*

In areas where there are multiple TVs installed, thanks to the Multi IR remote control unit, each remote can be assigned to a different TV with no signal interference from other remote controls. Up to four TVs can use this function simultaneously.

One Channel List

There may be several programs which can be received from terrestrial, cable or satellite broadcasts. VESTEL HotelTV provides a convenient channel list management with a single channel list which consists all the programs regardless of broadcast type.

USB

USB allows easy connection of external storage devices directly to your TV set. Via USB you can quickly connect external storage and access digital contents such as image files, video files and audio files. Simply connect your external memory source to USB port of Vestel TV to watch your favorite movies or to display photos that are stored on big screen of TV instead of being obliged to display these contents on the small screen of your computer. Plug yourself in bigger screen for higher pleasure!

BLUETOOTH

Vestel Smart TV's Bluetooth feature helps you to connect you accessories to your TV via Bluetooth. You can connect your headphones, sound systems, compatible 3D glasses and Vestel Touchpad remotes to enrich your TV using experience. Bluetooth feature completely changes your classical TV using habits and a true item for you to multiply the joy you have while watching TV!

HDMI

Through HDMI 2.0, you can experience the combination of pure sound and excellent visual content on your TV set. HDMI 2.0 is perfect and fastest source to transfer multimedia contents (video and audio) by providing clear pictures and clean sounds which results in an amazing user experience.

HDMI 2.0 provides, perfect source for potential UHD content and connection of various electronic devices to your TV set using only one compatible cable.

Auto-Data Erase

Hotel TVs have the ability to clear all cache data for Smart TV applications such as Facebook, Twitter, Youtube, etc. This increases the security for hotel guests.

Anti-Theft Battery Cover*

The anti-theft battery cover is a simple screw lock providing a fool-proof security to prevent the remote control battery from being stolen. It just makes your life easier.

Basic Hotel Mode

Hotel Mode Features

Basic hotel mode is particularly configured mode which makes usage of TV more specific and more accurate for commercial TV business branches thanks to the features it includes. Some basic features provide enhanced differentiation and to the point meet of expectations in hospitality applications which can be accessed via special controller combination.

Welcome Screen

Commercial logo, message or default pictures can be used and displayed at the start-up of TV. These can be displayed if the hotel mode is enabled. This feature allows you to benefit from customization at the high levels.

Wake-Up Alarm

In hotel mode, guests can set a wake-up time and TV can automatically wake up at the desired time and an alarm rings to wake you up. Concurrently, welcome image is shown on the screen while alarm is ringing.

USB Cloning

USB cloning allows you to copy the settings of one TV to all other TV units in an easier way. For instance, you can copy the settings or channel list of one TV to high amounts of TV by using USB cloning. By this way, you can simply standardize all TVs without spending a lot of time. Helpful USB cloning feature prevents you from dealing with time-consuming installations and makes your life easier.

Start-Up Position

This feature allows you to specify the starting channel
when TV is switched on.

Volume Limit And Fixed Volume Value

You can set the maximum and minimum values
as you wish. If you set volume limit, you set the
maximum value the volume can have. Moreover,
when fixed volume enable is on, volume cannot be
set to a value other than the fixed volume value.

Custom Bootlogo

Custom Bootlogo feature allows you to choose your
favorite photo such as your family photo, favorite
nature photo and more for the opening screen
of TV. Meanwhile, customization opportunity will
make your TV exclusive for you!

Osd Disable On/Off

OSD disable allows you to control TV settings
and prevents guests from changing the installation
settings. Users cannot reach channel table or
installation menu and that means channel list and
installation settings cannot be changed.

Last Status

When 'last status' feature is set to on, this feature
enables TV to open with the closing status.
Otherwise, TV opens with standby status.

Product Line-up

In terms of design and technology, Vestel offers considerably wide lineup range in order to meet broad expectations of people from a TV. Elegant slim models including ultra narrow bezel designs, quality metal applications or fashionable stand designs are all positioned in attractive lineup of Vestel. Flexibility, design capability and know-how of high technology allow Vestel to offer the most suitable product for your demand that fits your personal delight as well.
